# ZERO % LANDFILL

Sri Lanka's environment and seaside are the main attractions which has gifted us with the ability to build a strong and vibrant tourism industry. However, in the past, there has been a significant adverse impact on the environment in Sri Lanka due to the heavy use of one-time plastics.

With the aim of removing one-time plastic products in the hospitality sector, Hotel Emporium is in the process of initiating the Zero Landfill project. We will work with our customers, to collect all plastic toiletry Tubes, Bottles and other plastic.

These items will be stored at our warehouse for collection and then sent to our partner's center for recycling and co-processing. Further all this will be done at no additional cost to our customers, with all costs related to this operation directly borne by Hotel Emporium.
