Program Introduction

What is Soap for Hope?

Soap for Hope is an innovative program pioneered by Diversey to recycle used hotel guest soap and re-distribute them to poor communities across major cities through out the world. With operations currently active in 50+ countries globally. In Sri Lanka, Diversey has partnered with Hotel Emporium Sri Lanka and the Embodhi foundation to execute the program locally.

What are our Goals?

- Promoting good hygiene and health through hand-washing, by providing soaps to communities who lack access to them.
- Enhancing the livelihoods of local communities via recycling soap.
- Help hotels reduce waste by diverting tons of soap waste from local landfills and incineration.

We as the Soap For Hope Team hereby certify that the waste soap collected from our hospitality partner above was delivered to the Embodhi Recycling Center in Kadawatha. The soap was then sanitized and recycled through the Soap For Hope process, as specified under Diversey, and delivered to a community school in the Kalutara District on the XXX.

We would like to extend our sincere thanks for your generous support and partnership in this initiative, which has helped us create a meaningful and positive impact for communities most in need.
