SUPERIOR QUALITY

BETTER WORKFLOW

HIGHER PRODUCTIVITY

## WHO WE ARE

At Forbes Industries, our philosophy is to provide our customers with functional, friendly, aesthetic and durable products, which enhance operational efficiency and environmental safety. Forbes's products offer tremendous value in the long run.

Forbes Industries is the world's leading manufacturer of hotel and food/restaurant service equipment. Founded in 1919 in Los Angeles, California, the company established its first overseas headquarters, Forbes Industries Asia, in 2008 in

Singapore, which oversees the rapidly expanding markets in the Asia Pacific region.

Featured in this literature are products designed and manufactured in Asia, under Forbes's stringent manufacturing and quality standards. With the Forbes Asia brand name, we strive to provide good quality products at competitive price points, for all categories of properties and facilities in the hospitality, food & beverage service, restaurant & catering, and health care industries.

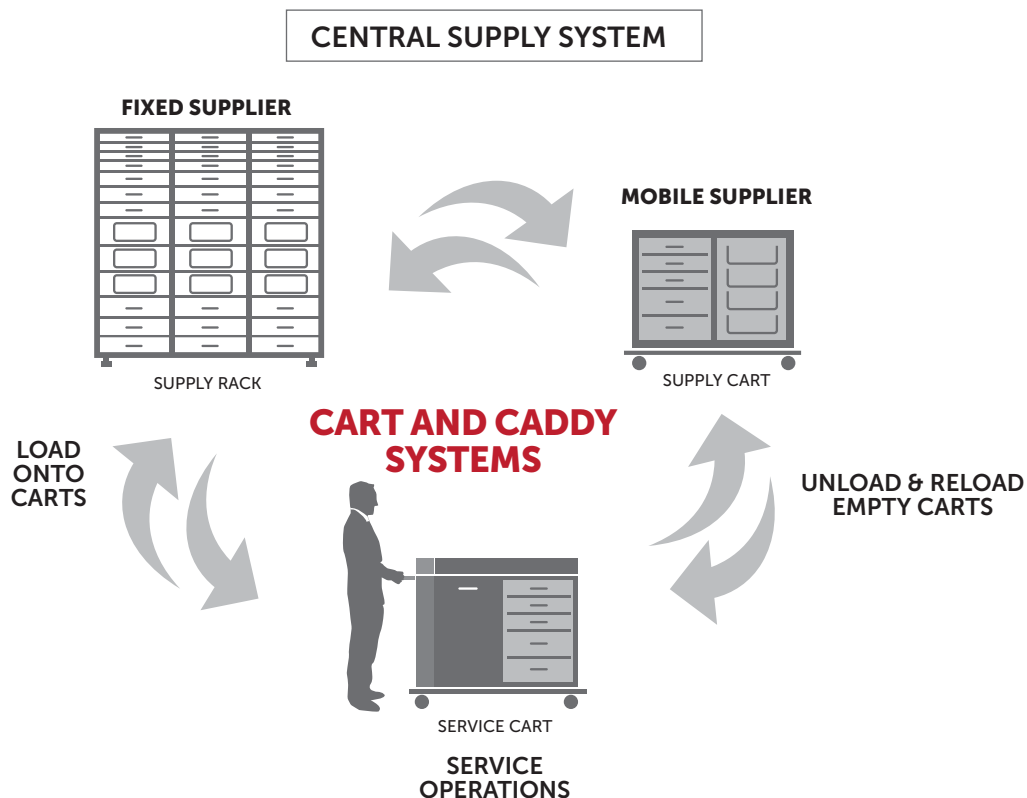

## THE SYSTEMS PROCESS

Forbes's innovative Cart & Caddy System combines process and equipment, to ensure efficient distribution of amenities and supplies to guest rooms. Integrating a complementary fleet of Service and Supply Carts, universal and inter-changeable caddies are pre-loaded and distributed to re-fill Service Carts. Quantity, types and assortment of supplies and amenities can be pre-determined according to operational requirements.

By pre-determining, storing, loading and distributing supplies separately, room attendants can focus on providing room attendance services without the distractions of exhausted supplies and runs to replenish emptied caddies. Additionally, use of the Cart & Caddy System will allow for room attendance services to be met in a productive, efficient and timely fashion.

The Cart & Caddy system offers the choice of Supply Rack and Supply Carts for re-supply purposes. The former is permanently positioned in the pantry, while the latter is a mobile unit that can double up as a replacement. Depending on specific needs and actual floor operational requirements, Service Carts may receive re-supplies from the Supply Cart, or at the pantry.

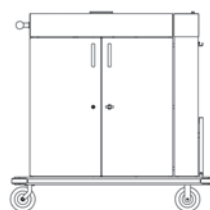

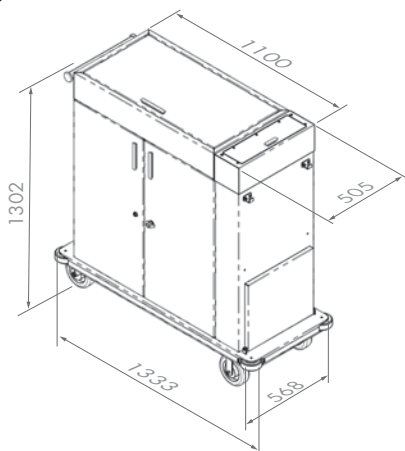

Finally, the Cart & Caddy System has been painstakingly conceptualised to offer maximum functional versatility, efficiency, ergonomics and user-friendliness. As with all other Forbes products, each component of the Cart & Caddy series is pre-dominantly constructed with aluminium and continental parts of superior quality. With cutting-edge technology and processes, every item is impeccably finished without compromise on standards and aesthetics.

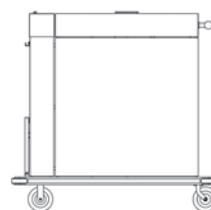

# SERVICE & SUPPLY CARTS

Made of aluminium and continental components, the carts are lightweight, versatile, appealing, and user-friendly. The caddies are designed to be universal and interchangeable for maximum flexibility and configured permutations.

# SUPPLY RACKS

The Supply Racks are designed to be positioned permanently in the pantry or store room located on each floor. They come in two configurations – two-column and three column units. They can also be re-configured to fit any room size or environment.

**2-column Supply Rack**  
6-HK-K390-0000

**3-column Supply Rack**  
6-HK-K393-0000

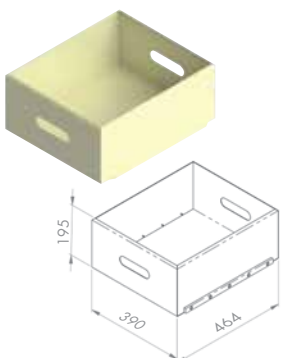

Caddies sold separately

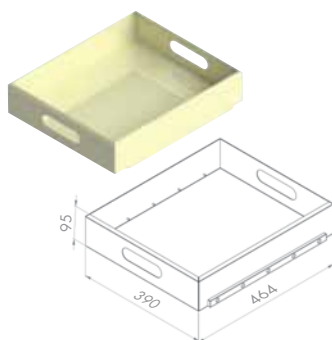

# CADDIES

The caddies are designed to hold bed & bath linens, paper tissues, amenities, stationery, bottled water, snacks and canned beverages. They come in various universal sizes that fit in all Service Carts, Supply Carts and Supply Racks. They are offered in light weight aluminium for durability or corrugated material for portability, better inventory control and efficient material flow.
